DETAILED ACTION

Allowable Subject Matter

1. Claims 39-51 are allowed over the prior art.

The following is a statement of reasons for the indication of allowable subject matter: Applicant has claimed uniquely distinct features dynamically displaying on the screen, adjacent to each other, multiple items from the list of items for the first scrolling zone in a second scrolling zone, wherein the items are scrolled by repeatedly removing items firstly introduced in the second scrolling zone and introducing new items from the list of items into the second scrolling zone, and wherein the second scrolling zone is displayed adjacent to the first scrolling zone; wherein the method further includes the steps of presenting a selection area within the first or the second scrolling zone, accepting a user input as a selection command to select one of the items displayed in the first or second scrolling zone being displayed in the selection area, accepting a user input as a command to move the selection zone to the respective other scrolling zone, making the respective scrolling zone within which the selection area is presented an elected scrolling zone. These features are not found or suggested in the prior art.

The closest prior art Schein discloses a conventional schedule information is displayed on a screen. The viewer may manually initiate a scroll via the peripheral scrolling areas through the schedule information and may make a selection in order to obtain more information about a program of interest; either singularly or in combination fail to anticipate or render the above underline limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
